## · Whispered Elegance Oak ·

Delgado is a decor that embodies quiet sophistication and modern refinement. Made from oak, its slightly diffuse character offers a reserved elegance, with no dominant areas to distract from its balanced beauty. The subtle streaks and delicate flowers are evenly distributed, creating a harmonious, consistent surface. A soft brushing of the pores, combined with a minimal white glaze, adds a refined, understated texture. Small, deliberate cuts in some planks introduce an innovative touch, elevating the design with a modern edge. Delgado is perfect for spaces that seek a calm, yet contemporary aesthetic, offering timeless elegance with a fresh and innovative twist.
