Breccia Imperiale

• Raw Elegance •

Raven is a decor that redefines rusticity with a contemporary edge. Crafted from oak, it features a striking interplay of 4–5 cm wide stripes and narrow floral structures, creating a bold yet balanced visual rhythm. The surface is brought to life with a handscraped finish that accentuates the natural grain, while the restructured brush effect enhances the depth and authenticity of the texture. The result is a decor that combine raw character with refined elegance, with a fresh expression of a true oak—sophisticated, textured, and timelessly bold.
