· Agatha Fusion Surface ·

Agatha is a decor that blends the timeless elegance of soft stone, reminiscent of granite, with the unexpected texture of textile net. This fusion creates a hybrid design that effortlessly balances natural strength and soft, tactile qualities. The textile pattern weaves through the stone surface, adding a unique depth and character to the material. Agatha's versatility allows it to be free-cut, offering adaptability for a wide range of applications. This innovative design reflects the modern material trend of combining contrasting elements, creating a surface that is both sophisticated and full of creative possibilities. Agatha is perfect for spaces that embrace the unexpected, where modernity meets fantasy in a harmonious, striking way.
