• Contemporary Oak Character •

Carter is a contemporary oak design that reinterprets natural character with a refined perspective. Its composition combines linear sections with soft cathedral patterns, creating a balanced visual rhythm that adds depth while maintaining a clean and elegant expression. Subtly defined dark pores enrich the surface with a gentle rustic nuance.

The planks reveal a harmonious structure where texture and movement remain carefully balanced. Contemporary yet authentic, Carter brings warmth, versatility, and a sophisticated natural presence to modern furniture and interiors.
